

D.O.C.S. Awards

D.O.C.S. would like to congratulate Drs. David Penwell, Martha Cassity, and Brad Williams, all recipients of their D.O.C.S. Fellowship in Dallas and Indianapolis.

Dr. David Penwell, DDS has been a D.O.C.S. member for over four years. He is a graduate of the University Of Minnesota, School Of Dentistry. Dr. Penwell has been in private practice for over twelve

years and is a partner/owner of the 1st Choice Dental Group in Wisconsin, with over nine offices throughout the city and surrounding area. Dr. Penwell is very involved in the community through coaching and sponsoring area groups and teams such as the Wisconsin Badgers Athletics, Madison Area Little League, Overture Center Symphony Hall, as well as a local hospital and non-profit dental clinic. Dr. Penwell is originally from Montana and enjoys fly-fishing and downhill skiing. He and his wife Colleen are parents to three children. When asked about what sedation means to him, Dr. Penwell replied "Sedation dentistry has given me the opportunity to treat a patient population that would otherwise go untreated. The gratitude shown to my staff and myself after sedation has been tremendous and overwhelming. Patients coming in for a sedation consult who wouldn't even sit down in the waiting room (because all they could do was pace back and forth), are now regular hygiene patients. These patients have been given the opportunity to maintain their oral hygiene and are glad to be in the dental office. I enjoy

sedation because I can sit down and restore patients in one or two longer, more complex appointments rather than a bunch of little ones." Dr. Penwell believes his staff has been invaluable in the process and has embraced sedation dentistry to the fullest extent. His staff continuously asks when the next D.O.C.S. seminar is so they can attend and keep up to date with the latest D.O.C.S. protocols.

Dr. Brad Williams, DDS has been a D.O.C.S. member for over two years. Dr. Williams is a graduate of the Baylor College of Dentistry. He taught in the undergraduate children's department at Baylor for a year and then en-

tered private practice. Dr. Williams has been in private practice for 27 years. Dr. Williams has a wonderful partner, Dr. Nicole Sivie and a very supportive staff; all of his team members are proficient in sedation dentistry and handling medical emergencies. He is a member of the ADA, Texas Dental Association, Dallas County Dental Society, American Academy of Cosmetic Dentistry, ADSA, Dental Organization for Sleep Apnea - Founding Member, American Academy of Dental Sleep Medicine, American Academy of Implant Dentistry and Academy of Laser Dentistry to name a few. Dr. Williams has been married to his wife Lisa for 30 years; they have two wonderful daughters both of

whom work in his practice. They also have a son who is attending Dallas Baptist University. Lisa and Dr. Williams are also grandparents to three wonderful little boys. When asked about sedation dentistry Dr. Williams says "While I have been providing sedation dentistry for 27 years the D.O.C.S. courses have provided a wealth of information not available in other courses. Every instructor has been incredibly knowledgeable and very approachable. Beyond providing up-to-date information, D.O.C.S. has strengthened my confidence, cultivated a desire to learn more, and created a passion for sedation dentistry." Dr. Williams also said "I am so thankful to Dr. Silverman, Dr. Feck, Dr. Fang, and all the D.O.C.S. staff that have worked so hard to bring sedation dentistry to the forefront. You have created an exciting learning experience in the D.O.C.S. course curriculum. My patients and I will be forever grateful."

Dr. Martha Cassity, DMD

has been a D.O.C.S. member for four years. Dr. Cassity is a graduate of the University of Kentucky, College of Dentistry; she also holds a BA and an MA in special education /speech and language pathology. Dr. Cassity was in a private General Dentist practice for three years, and has been in private Periodontal practice for eighteen. Dr. Cassity has a fantastic team who are all well trained in the management of sedated patients, as well as giving instructions to patient

caretakers. In addition to being a member of D.O.C.S., Dr. Cassity is also a member of the ADSA, American Academy of Periodontology, The Kentucky Society of Peridontists, ADA, Kentucky Dentists Society, and the Professional Management Society. Dr. Cassity has been an aviator for 23 years, flying a Cessna 182. She also enjoys motorcycle touring, snow skiing, back packing, and competitive handgun shooting. Dr. Cassity has a grown daughter and son and a beautiful two-year-old granddaughter. When asked about oral conscious sedation, Dr. Cassity said, "Oral conscious sedation has allowed me to offer very fearful patients the opportunity to follow through on their treatment plans in comfort and free of anxiety. Oral conscious sedation has made my professional life much nicer in that I can focus on performing the very best surgery while not being distracted by anxious and fidgety patients."

Dr. Martha Cassity receives her D.O.C.S. Fellowship from Dr. Feck, Dr. Fang, and Dr. Silverman.
